YOUTH AT THE WHEEL

An insurance publication points to the fact that an "astounding percentage" of the growing automobile death toll is caused by cars operated by boys and girls—many of them below the legal age at which they can obtain drivers' licenses.

Most parents readily agree that the average 12 or 13-year-old is incapable of safely and prudently operating anything as potentially murderous as an automobile—but they too often make an exception when it comes to their own Jimmie or Sally. It is one of the human frailties to regard one's own children as being brighter than one's neighbors—and that attitude, harmless as it is in most cases, is directly responsible for a vast and horrible waste of life.

Overly youthful drivers not only cause more accidents than their elders—they cause more serious accidents. They usually drive at extreme speeds. The hazards of passing on curves, of driving on the wrong side of the road, of weaving in and out of traffic, of "jumping" stop signals and "gunning her" along busy

Pinon Players Rivive Old Drama

"Uncle Tom's Cabin," the Pinon Players' offering for the past week-end, was not exactly the sort of a play in which the company appears to the best advantage—a bit too heavy and calling for a finesse humanly impossible without much arduous rehearsing. Nor were the stage settings sufficiently realistic to bring out the pathos without which this great drama loses its appeal.

Fortunately, Uncle Tom, the leading role, played by Franklin Wilbur, was very good, likewise John Straub in Simon Legree, which compensated somewhat for the shortcomings of some of the other parts, particularly Little Eva, which was taken by one altogether too old and rotund; and Topsy, which was overplayed.

Nevertheless the production pleased a great many who perhaps had never enjoyed Uncle Tom's Cabin in its zenith of popularity when a carload or two of special scenery and a company of outstanding artists were required for its production.

The Pinon Players already have given Carmel several delightful dramas, particularly Mrs. Moonlight and The Inspector General, and their patrons appreciate the good work they are doing, but to keep their batting average up near the top perhaps it would be wise to confine their repertoire more to comedy and lighter melodrama.

On the boards for the coming week-end is "Post Road," a New York sensation of the past season. "Post Road" tells the story of one Emily Madison, who owns a tour on the Boston Post Road which runs from New York to Boston (Yes, and back again). Quite without her knowledge, her home is taken over by a gang of kidnappers who have just stolen the infant son of a multi-millionaire. Her efforts to escape with the baby and

to get help from outside parallel the rigors which Eliza underwent last week on the same stage, only accompanied by a great deal more merriment.

CARMEL RESIDENT IS TAKEN BY DEATH

Ned C. Jacco, 68, of Carmel, passed away at his home there July 17, following a long illness.

Mr. Jacco was prominent in business and fraternal circles of the San Francisco Bay region for many years prior to his retirement because of ill health four years ago. Since that time he had lived in Carmel.

He was a leader in California Shriners' affairs and had been active in the furniture business.

He is survived by his widow, Mrs. Lucy B. Jacco, also of Carmel.

Private funeral services were held Friday afternoon at the Freeman mortuary chapel in Monterey. Rev. Albert E. Chinni officiated.

Mr. and Mrs. J. P. Miller of Orinda Park, Berkeley, are visiting relatives and friends in Highlands and Carmel for two weeks.

Mr. and Mrs. Joseph Hitchcock, Jr., drove toward Oakland Sunday and at an attractive intervening point ate a picnic lunch with relatives from Oakland, who brought with them little Miss Clara Joy Hitchcock, who had been visiting in Oakland since July 10th, when she went to the bay city with her parents and Mr. and Mrs. A. E. Pfremmer.

When you have a job of printing please remember The Sun. Our work is pleasing and prices low.

Big Sur Scout Camp News

Scout headquarters of the Monterey Bay Area Council, Boy Scouts of America, have just completed tabulating their summer camp statistics, and some rather surprising and interesting figures result, the scout executive announced today. The report is based on council-operated summer camp at Camp Wing, Big Sur, which was in session four weeks, from June 16 to July 15.

Of interest to many parents will be the news that out of 321 different scouts given physical examinations and check-ups by the camp medical director, Gordon W. Richmond, 74 were found to have physical defects. This represents better than 23 per cent, or almost one out of four. Most of these defects could be easily corrected by parents, it was pointed out in a special bulletin from scout headquarters to parents concerned, in which parents were urged to cooperate with the boy scout movement in reducing this percentage.

Thirty-five troops were represented at camp this year, as combined attendance of 359 scouts and leaders. Total camper weeks for scouts reached 405 and 54 for the leaders, or a total of 459. The average daily attendance of scouts and leaders for the four-week period was 117.3, while the highest daily attendance reached 218 and the lowest 60, the latter toward the close of camp.

Troop camp improvement awards were won by troops 34 and 36, Hollister, 87 and 99, Watsonville; 28, San Juan; 69 and 71, Santa Cruz.

A. C. LaFrenz, of the Del Ling shop on Dolores street, is back in Carmel after spending two weeks taking in the big show at San Diego and visiting other cities in the South.

Come to Townsend club meeting, lunch room Sunset School, Monday, 8 p. m.

Yellow Jacket at Forest Theatre

As a tribute to Edward Kuster, Carmel citizens are expected to attend in a body the Forest Theater's production of Yellow Jacket, August 2 and 3, 9 and 10, which he is directing. This Anglo-Chinese play took the East by storm some years ago, and was one of the Forest Theater's most successful productions in the 1920s.

Wear your Chinese togs on the street next week. There will be yellow decorations in merchant's windows, Chinese lanterns, confetti, and women will wear yellow silk pants and the men will be dressed in skirts. Tea will be served to

those wearing an article of Chinese clothing.

The play follows Chinese stage traditions, and is presented without scenery, curtain, or proscenium arch. The stage will be a pagodaed tea garden, surrounded by tall pines and lighted by the moon and William Gaskin's spotlights. The plot is packed with interest and the Chinese stage procedure will be both amusing and instructive, as it will be a true picture of Oriental technic. Edward Kuster has made a life study of the Chinese theater, and Fred Bechdolt, who plays the lead, is an experienced actor, having played this role with great success before.

streets, mean little or nothing to them. Taking chances is a game to them—a game at which innocent persons are often the losers.

Every parent should make it his business to see that his children are not permitted to drive until they have reached the legal age—and, even then, that they are carefully supervised and forced to be

careful. The authorities should likewise carry on a continuous and insistent campaign to bar underage drivers from streets and highways. If that is done, thousands of our automobile accidents will be eliminated.

California Farm Power Rates lowest in Nation

AGRICULTURE AIDED BY ELECTRICITY
CHEAP IN COST—AVAILABLE EVERYWHERE

THE PROOF—U. S. Census of Electrical Industries:

1	California average rate for farm power	1.5 cents
	National average rate for farm power	2.8 cents
	(Figures based on revenue from consumers)	

2. Apply the same test to any state:

California	1.5 cents per kwh
New Hampshire	7.2 " " "
New York	6.4 " " "
Illinois	7.5 " " "
Michigan	4.6 " " "
Missouri	6.6 " " "
Kansas	5.7 " " "
Georgia	6.1 " " "

Other states show the same great differences; some report higher average rates than those here quoted; none lower than California.

3. California farms use 63 per cent of all agricultural power consumed in the United States but pay less than 33 per cent of the total national bill for farm service.

THE REASON . . . electricity is cheaper in California.

Sixty per cent of all farms in this state use electricity, more than in any other state. Electric power has brought efficiency, increased production, larger money returns to agriculture. It has freed the farmer from drudgery and in his home has given him all the comforts and conveniences offered by modern electrical appliances.

Electricity Costs Less in California

LET US HAVE DEMOCRACY

BLOODY REVOLUTION IS NOT NECESSARY

An Introduction to the Most Vitally Important Subject of the Age

By ERNEST J. ATTER

Dear Fellow-Citizen of the United States of America:

Think of the American People as one big family and think of this

Great American Family's Homestead

(farm, house, workshop and garden) as bounded by the Pacific, the Atlantic, Canada, and Mexico. Within the borders of this great homestead this big family possesses all the food, clothing, shelter and practically everything the members of the family must have in order to enjoy life and health. Think of the father of this big family allowing his children to just barely exist, in misery and semi-starvation, instead of allowing them to be happy and enjoy the goods the family has produced; and this because his ticket system is unsound and controlled by a bookkeeper (banker) in the interests of the bookkeeper and against the welfare of the family. What would you think of that father and that bookkeeper?

America's Money Is Privately Controlled

The Private Monopoly of Money and Credit is at the root of practically all the Nation's troubles, including business depression, bankruptcies, suicides, crime, insanity and poverty. These are caused by the anti-social policy of the International Financiers who control the private banking system of America and the Nation's money and credit. The Federal Reserve Banks are privately owned and controlled.

The Constitution Is Being Ignored

The Constitution of the U. S. A. gives Congress the right to issue and control the Nation's money. We have departed from the Constitution and are allowing the private banking system to usurp this most important function of Congress. Congress must assert its right and do its duty as laid down in the Constitution.

Don't Scrap The Constitution

Let us not change the Constitution. It has not yet had a fair trial. Ninety-five per cent of the Nation's money is bank-created credit money (check money) controlled by the private banking system, in the interests of private bankers' policy. Let the Nation's money be controlled by Congress, in the interests of the policy desired by the American people, as laid down in the Constitution, and real prosperity will dawn in the land and the cause of war and bloody revolution will have vanished. Give the Constitution a trial; give Democracy in America a trial.

Plenty of Food, Etc.

America has within her borders abundant supplies of food, clothing, shelter, etc., and the raw materials, energy, machines, knowledge and ability to produce them in even greater abundance. Millions of our fellow-citizens cannot obtain enough of these things and their standard of living is below the level of decency. At the same time the government deliberately destroys pigs, cattle, corn, wheat, milk and cotton and pays the farmers (with money raised by taxation) not to raise these things which citizens are starving and ill-clad for the lack of. Despite this insane sabotage, warehouses are choked with goods that cannot be sold because underfed and underclothed citizens lack money.

Shortage of Purchasing Power

Even though all employables were employed at high wages the total consumer income (wages, salaries and dividends) paid out by Industry (and there is no other consumer income) would never be as much as the total prices of goods produced in the same period. All costs must be included in the prices charged for the goods but some of these costs (depreciation, interest, bank charges) never appear as purchasing power in the hands of consumers.

The Great American Factory

Think of the whole of the country's agriculture and industries as one big factory. As we have seen only a part of the goods produced can be sold (under the present system) and so there accumulates a great quantity of unsold goods. Even though consumers need these goods they cannot get them. Our big factory cannot repay, in full, its debts to the banking system

which refuses to renew those loans that are repaid. So production is cut down, workers thrown out, there is less consumer income and so even less possibility of the unsold pile of goods being sold, although the people need them.

The Remedy

The remedy, obviously, is to make it possible for our big factory to sell its products to the American People to the full limit of their requirements. This means that consumer purchasing power must be increased by the amount of the shortage without including this amount in the price of the goods for sale.

The Social Credit Solution

Major Clifford Hugh Douglas, a Scottish engineer of note, who discovered these flaws in the money and price system, has worked out a method whereby this necessary additional purchasing power can be provided WITHOUT taxation, WITHOUT inflation, and WITHOUT debt. His proposals are known as DOUGLAS SOCIAL CREDIT. Social Credit is NOT socialism, NOT communism, NOT fascism, but it is the way to ECONOMIC DEMOCRACY and the maximum freedom for the individual citizen.

Do Not Demand Social Credit

Major Douglas warns Democracy not to demand Social Credit or any other method. To do so would enable International Finance to get "put over" some scheme resembling Social Credit but inherently unsound and bound to fail. Finance could then turn to the voters and say, "We told you Social Credit was no good and now you know it."

Demand Results, Not Methods

Major Douglas advises the people to demand results; to DEMAND NATIONAL DIVIDENDS AND THE ABOLITION OF POVERTY. Congress can then transmit the desires of the people to the men at present controlling the financial system and order them to accomplish the results desired by the people. The responsibility for results will then plainly rest with those in control of the Nation's money and credit.

Personal Mention

Miss Hallie Sampson, who has been at the San Diego fair since its opening on May 30, has returned to Carmel and is taking over management of the DerLing shop again.

Mr. and Mrs. J. C. Wilbur of Phoenix, Arizona, are spending three weeks with their daughter, Mrs. Dorothea Moore in Carmel.

Carl Burrows and Frank Cole are in Arizona on business for about two weeks.

Mr. and Mrs. Charles Fraser of San Jose have returned to their home after spending several days with Mrs. Fraser's sister, Mrs. John E. Abernethy in Carmel.

Judge and Mrs. P. J. Crisby of Hayward are in Carmel for a few weeks' vacation. Mr. and Mrs. Peter J. Crisby Jr., and their small daughter of Oakland are also in Carmel, occupying a cottage on Santa Rita for a month.

Mr. and Mrs. Reginald Newman, who have been occupying their Pasadena home during the winter, are in Carmel for a short stay at their home here.

Bob Rosentrader has returned to his San Francisco home, concluding a vacation of several weeks in Carmel.

Miss Mary Campbell, who has been with friends in Carmel for a month, is again at her home in Piedmont.

Mr. Fred Cobb of Beverly Hills has been visiting relatives in Carmel for the past few days.

Lieutenant and Mrs. H. W. Corbett of Piedmont are spending a two weeks' period in Carmel, where they have taken a cottage.

Mrs. A. M. Chapin and her daughter, Mrs. Albert Davidson, have returned from Los Angeles, bringing with them Mrs. Davidson's two small sons, who have been attending the Montezuma School for Boys.

Miss Virginia Dutcher has gone to San Diego for a vacation visit with friends.

In Carmel for two months visit is Mrs. Paul Clagstone of Palo Alto, who is occupying the cottage, "Galewood."

Mrs. Caroline Ward and her Townsend club committee are giving a dessert whist party on the

afternoon of Tuesday, July 30, in Holman's solarium. Dessert will be served at 1:30 p. m., and the whist games will start at 2 o'clock. Awards for the afternoon's scores will be in the form of home-cooked delicacies. The public is invited to attend.

Mr. and Mrs. Hal Garrott have returned to Carmel, completing a motor trip to Minnesota, where at St. Paul, they visited relatives and old friends, both being former residents of the Gopher state. They experienced a great amount of extremely hot weather and were glad to breathe the refreshing air of Carmel again. However at Glacier Park, which they visited, they found snow along the roadway.

Miss Edith Smythe is entertaining at her Carmel home Mr. and Mrs. Harry Dowe, and Mrs. Grant Wren, sister of Mrs. Dowe, all from San Francisco.

Closed holidays.
Monte Verde Street, One block North of Ocean Avenue.

CHRISTIAN SCIENCE CHURCH

"Thou hast redeemed me, O Lord God of truth." These words from Psalms comprise the Golden Text to be used Sunday, July 28, in all Churches of Christ, Scientist, branches of The Mother Church, the First Church of Christ, Scientist in Boston, Mass.

The subject of the Lesson-Sermon will be "Truth." Included among the Scriptural selections will be: "Blessed is that man that maketh the Lord his trust, and respecteth not the proud, nor such as turn aside to lies... I delight to do thy will, O my God; yea, thy law is within my heart... Withhold not thou thy tender mercies from me, O Lord; let thy loving-kindness and thy truth continually preserve me" (Ps. 40: 4, 8, 11).

The following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, will also be included "To Seek Truth through belief in a human doctrine is not to understand the infinite. We must not seek the immutable and immortal through the finite, mutable, and mortal, and so depend upon belief instead of demonstration, for this is fatal to a knowledge of Science. The understanding of Truth gives full faith in Truth, and spiritual understanding is better than all burnt offerings" (p. 286).
